Honeybees are more than just insects because they are one of the most important animals on Earth. People pay them little mind when they watch them flying from flower to flower. Although it doesn't look like much when they do that, they are in fact doing an important job. It's even more important than picking up nectar to make honey. They are moving pollen from one plant to another over and over again. This helps the plants to be able to make more plants. They do this for 80% of the world's flowers and plants, and without them, one third of the world's food will disappear. In other words, no bees mean no plants, and no plants mean no food for animals like cows, pigs, and chickens. Also, no animals mean no meat, milk, or eggs for people to eat. Sadly, that may be happening soon because many bees are leaving their homes and disappearing. Scientists call it Colony Collapse Disorder. The UK lost 33.8% of its bee homes, and the USA 45%. If we don't do something to stop this soon, maybe we will not have a home for very long.

### “HELP!” Note Found on Chinese Fast-Fashion Clothes

KS News by Ashley Smith

The videos about people seeing “help” messages on some clothes from SHEEN company went viral on TikTok. The company told KS News, “The messages ask people to help the Earth.” They said that it was part of the new clothing line, “We use less water to make these items, so by buying our clothes, you are helping the world.” However, many customers don’t believe the company. Joselyn, one TikTok user, said, “My sister bought two of the same shirts at the same time in different sizes, but the small one has the help message and the medium one doesn’t.” Another user Tasha said, “Sorry SHEEN, I won’t buy any of your clothes anymore.” More people are asking to see the working environment of the workers.

SHEEN is a popular clothing company from China. They sell fashionable clothes at low prices, from dresses, T-shirts, pants, to shoes and more. They became even more popular because of TikTok and the outbreak of Covid-19 in 2020. The company only has online stores, so it didn’t stop people from shopping.

However, besides being cheap and popular, the company also made the news headlines for breaking labor laws. “SHEEN workers have to work more than 75 hours a week. That’s almost two times longer than those in the labor law,” some news reported back in 2019.
